## ABOUT THE WORKSHOP

This workshop focuses on enlightening the persons who wish to know the basics of Image processing, and for scholars doing research in the area of image and video processing. Image analysis and video processing has been a tremendously active area of research for the past decade or so. There are many successful applications of image processing such as Biometrics, Remote Sensing, Seismology, Medical Image Analysis, Object detection and tracking, etc., However, there are numerous open problems in Image analysis and video processing that are in desperate need of advanced and efficient computing techniques to deal with tremendous amounts of problems that those problems are plagued by.

## OBJECTIVES

To give an exposure on the fundamental and advanced concepts in the field of image and video processing and to motivate the participants to involve research in the direction and use computing techniques to improve the learning process.

## TOPICS TO BE COVERED

- Preprocessing Techniques
- Hands-on Training in Fundamentals & Preprocessing
- Biometrics in Image Processing
- Video Processing Techniques & Applications

## REGISTRATION

The registration fee should be paid in the form of demand draft drawn in favour of **"The Principal, SSN College of Engineering",** payable at Chennai along with the registration form.
