WHERE LEADERS ARE BORN

ALUMNI

Thomas V Pasca

Alumni, M.Tech IT
2011-13 Batch
Earned PhD from IIT-H,

Now, Senior Systems Research
Engineer at Qualcomm Research, San
Diego, California, USA.

SSN gave me an opportunity to learn like never before. I was amazed and inspired by the technical depth of the faculty members which I hadn't experienced before which gave me the motivation to study things in detail and to analyse...

ABOUT US

The M.Tech IT Course

The syllabus includes courses with project component on Big data analytics, Machine Learning and Artificial Intelligence, Blockchain technology, Internet of things, Cyber security, Cloud computing, Speech Technology and more. A one year research project with an opportunity to publish in leading journals and pursue PhD.

The Faculty

Active in research, with a cumulative research grant of 197.669 lakhs from MIETY, DST, DRDO, etc. Additionally, they work with students on various projects with annual research seed fund grant from SSN management.

Publish more than 50 research papers every year in well refereed journals and conferences. More than 80% of the publications are indexed by WoS (Thomson Reuters) & Scopus.

The Facilities

9 labs and state-of-the-art research centers
Department library with >3000 books
A/c seminar & conference halls
Regular talks from eminent industrialists

OUR HISTORY

Commencement of Department in 1999

Commencement of PG program in
2005-06

Recognized as research center by Anna
University since 2011
