DEPARTMENT OF CHEMICAL ENGINEERING

Mentoring system to help at individual level (5)

Sri Sivasubramaniya Nadar (SSN) College of Engineering is working towards enhancing the educational culture to better serve the needs of a vibrant learning community. Effective mentoring begins with the faculty and there should be a healthy relationship among faculty members and students. Mentoring and guidance shall be on the following aspects:

- Academic guidance
- Career guidance
- Encouraging students to take up mini projects and internships/ in-plant trainings
- Motivating to pursue co-curricular, extra-curricular and social activities
- Personality and character development

The following summarizes the system in place to provide the aforementioned aspects to students.

One mentor is assigned for a group of 10 to 20 students throughout their period of study. Every week one period is allotted for meeting and counseling the students on all aspects starting from academic guidance to personality and character development. Each mentor has been given a Mentor Record book for every student allotted, to monitor their progress continuously. They maintain a complete database of their students starting from personal details, academic performance, attendance, co-curricular/extra-curricular achievements, their placement and higher studies details and the details of parent meetings in the book. This record book will be reviewed by the Head of the Department at the end of every semester. **Figure B.9.1.1** shows the sample of Student Mentoring system.
