## Alumni Write up

### Write up:

**Mr. Suriyaprakash B** (Department of BME, 2021–2025 Batch)

Hardware System Engineer at **Forge Innovation & Ventures**

### From Student to Hardware Systems Engineer: An SSNite's Success Story

Receiving my **B.E. in Biomedical Engineering** at the **26<sup>th</sup> Graduation Day** of **SSN College of Engineering** was a proud and emotional milestone. Looking back, my four years at SSN were truly transformative, filled with learning, growth, friendships, and experiences that extended far beyond academics.

The Department of Biomedical Engineering provided me with a **strong foundation**, supported by **faculty members who served not only as educators but also as mentors**. Their guidance, encouragement, and belief in my potential helped me grow both technically and personally. The opportunities to explore new ideas, take on challenges, and learn from every experience shaped my undergraduate journey in meaningful ways.

**Campus life at SSN was equally enriching**. From participating in and organizing events such as **Instincts** and **Invente** to taking on leadership responsibilities and collaborating with talented peers, every experience taught me valuable lessons in teamwork, communication, problem-solving, and perseverance. These opportunities helped me build confidence and prepared me for challenges beyond the classroom.

**Hostel life added another memorable dimension to my journey**. The late-night conversations, celebrations, shared experiences, and friendships formed during those years transformed a **group of strangers into a family**. The memories created within the hostel corridors and common spaces remain among the most cherished moments of my college life.

**More than a degree, SSN gave me a second home**, lifelong friendships, invaluable exposure, and opportunities that contributed significantly to my personal and professional growth. As I move

forward into the next chapter of my life, I carry with me the lessons, values, relationships, and memories that SSN has gifted me.

I am deeply grateful to the faculty, staff, friends, and mentors who were part of this remarkable journey. Thank you, SSN, for shaping who I am today. I will always be proud to be an alumnus of this institution.

**SSN College of Engineering proudly congratulates Suriyaprakash B and wishes him continued success in his professional journey as a Hardware Systems Engineer. The institution extends its best wishes for his future endeavors and looks forward to his meaningful contributions to technological innovation, engineering excellence, and the advancement of industry-focused solutions.**
